

## Career Development Office

Chase's students and alumni come from a variety of professional and educational backgrounds and are among the most qualified and prepared candidates. The Career Development Office helps prepare Chase students and alumni to be successful job seekers by providing legal career programs, networking assistance, and by helping with career planning, job search strategies, resume and cover letter preparation and effective interviewing techniques. We counsel students individually and offer many seminars and programs designed to assist in your career exploration and transition to the legal profession. We are proud of our strong relationship with employers and alumni.
